- Build tools:** Maven
- Software development methodologies:** Agile, Scrum

GPA

83 / 100

COURSES

Object-Oriented Programming

Java, User Interface

Computer Hardware and Operating Systems

Linux, Multithreading, Multiprocessing

Database Systems

SQL, MySQL, Microsoft SQL Server, MongoDB

Machine Learning

Business Intelligence, Data Analysis

Software Engineering and Quality Assurance

Scrum, Design Patterns, JUNIT

Data Communication

Client/Server, networking, TCP/IP

development of information systems

AL-HAIFA project

Data Structures & Algorithms

LANGUAGES

English

Proficient

hebrew

Native

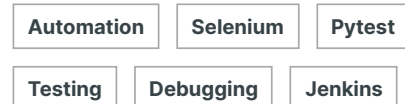

SKILLS

Programming Languages

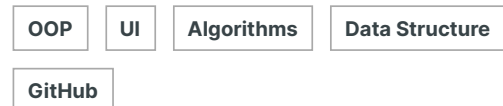

Quality Assurance

Operating Systems Software

Software Developer

Business intelligence

PROJECTS

AL-HAIFA

<https://github.com/rani-maklada/AL-HAIFA>

Information Systems APP for a flight company

- Java
- GUI
- OOP
- Database

Prediction-using-Machine-Learning:

<https://github.com/rani-maklada/Prediction-using-Machine-Learning>

Sales Prediction Using Machine Learning Algorithms

- sklearn
- pandas
- matplotlib
- Jupyter Notebook

ACHIEVEMENTS

I have Completed programming, Data-structures courses

I have Background in Communication Networks

Experience on Working in C/C++

Ability to work at least 20 hours a week
