## EDUCATION

### B.Sc. Computer Information Systems

#### University of Haifa

10/2020 - 10/2024

GPA

83 / 100

- Programming languages:** Java, Python, C, SQL, MongoDB
- Data storage:** MySQL, MS SQL Server, MongoDB
- IDE:** Eclipse, IntelliJ, CodeBlocks, Visual Studio Code, Jupyter Notebook
- Versioning Control:** Git, GitHub, GitLab, GitHub Desktop
- Build tools:** Maven
- Software development methodologies:** Agile, Scrum

## COURSES

### Object-Oriented Programming

Encapsulation, Inheritance, Polymorphism, Abstraction

### Database Systems

SQL, MySQL, Microsoft SQL Server, MongoDB

### Software Engineering and Quality Assurance

Scrum, Design Patterns, JUNIT

### development of information systems

GUI, OOP, Java, Database

### Computer Hardware and Operating Systems

Linux, Multithreading, Multiprocessing

### Machine Learning

Business Intelligence, Data Analysis

### Data Communication

Client/Server, networking, TCP/IP

### Data Structures & Algorithms

arrays, linked lists, stacks, queues, trees, and graphs. sorting algorithms. search algorithms. graph traversal algorithms

## CERTIFICATION

### Selenium Webdriver with Python

Extensive experience in designing, developing, and enhancing automated test scripts using Selenium and Python. Knowledge of manual and automated testing of client/server and web applications. Experience in creating test automation frameworks using Python, implementing Page Object Design Patterns, Pytest fixtures, and Log4j reporting. Integrated PyTest test suites with Jenkins Server to execute automation scripts regularly and performed functional testing, data-driven testing, and cross-browser compatibility testing on different browsers.

## SKILLS

### Programming Languages

### Quality Assurance

### Operating Systems Software

### Software Developer

### Business intelligence

## PROJECTS

### My Personal Github

https://github.com/rani-maklada

Information Systems application, predication using machine learning and more.

## LANGUAGES

English  
Proficient

hebrew  
Native

## ACHIEVEMENTS

Developed Information Systems application demo for a flight company

Prediction using Machine Learning

Led a team of students in the development of a chess Game
