Education

Oct 2020 - Present

B.Sc. Computer Information Systems
University of Haifa

Some of the main courses I have completed successfully:

- Introduction to Programming and Computer Science with C programming language
- Object-Oriented Programming in Java
- Data Structures and Algorithms
- Computer Hardware and Operating Systems in Linux
- Database Systems
- Machine Learning and Business Intelligence in Python
- Information Systems Analysis
- Introduction to Artificial Intelligence

Languages

English
Advanced

hebrew
Native

Skills

Java	Python	C#	C
SQL	Machine Learning	Data Analysis	Web programming
Object-Oriented Programming (OOP)	Algorithms & Data Structure	Multithreading and Multiprocessing	Testing and Debugging
Well-organized and time-conscious	Operating Systems Software	People Management	User Interface
GitHub			

Projects

GitHub link: **https://github.com/rani-maklada**

- Information Systems APP Using GUI and Database for a flight company
- Data Processing Using Machine Learning Algorithms
- Implement Searching Algorithm and NaiveBayes-Perceptron Classifier

Additional Skills

- Fluent in Java, C, and Python coding languages
- Expert in Object Oriented Programming
- Proficiency with Algorithms and Data Structures
- Working with SQL Server Management Studio
- Experience in Business Intelligence and Data Analysis
- Knowledge of Processing Data using Machine Learning Algorithms
- Write and Run a C Program in Linux
- Working with GitHub to complete software projects in a cooperative team environment
- Familiar with Agile Methodology
- Knowledge of Linux Operating System
- Excellent interpersonal skills
